I just took the re-take, and i got the same score. That quiz was my worst one so does that mean its not on my grade?

The lowest quiz gets dropped, as does the lowest homework & the lowest class participation grade. We're all allowed to be human and have bad days...

With that quiz dropped, your average is an 89%. You are within spitting distance of an A, with the most difficult math curriculum you've probably ever seen. That is incredible, and you should feel great about it! Keep on working hard; I think you're going to wind up with an A, but that all depends on how persistent you are. You go, girl!

I love having you as a student, I'm so glad you're in Beauport. :)

I'm so proud of you!!!! This is not an easy curriculum, and an 86% on that retake is awesome! You are more than welcome, I really want to see you succeed, and I know you're SO capable...

Your current average is an 85% - which is fabulous. I'm sure you want it in A range, but you're not too far away. Remember too, I'm working on getting the designation of high honors changed for those in Advanced Math. Any kind of an A or a B, in this rigorous curriculum, is deserving of high honors. Nothing has been decided yet, but I'm doing everything I can to make it happen... :)

Angie - I think you're doing a great job. Please don't let one tough test make you think that everything is a wreck. You did a great job on the refresh assignments, and I really think that you will see better results when you take it again. I love having you in my math class; hang in there!
