

**O'Maley Innovation Middle School Grade level curriculum
meeting notes**

GRADE: 7

DATE: 12/13/16

LOCATION: 302

PRESENT: Kim Shea, Michelle Murphy, Dawn Burke, Adrienne Marden,
Flo Campbell

RECORDED BY: Kim Shea

PURPOSE: To discuss how the students with math goals are falling through
the cracks.

DISCUSSION: Perhaps we try to marry the best of the both worlds (paper
vs. online) as scaffolding for this group. Kim has created a Google Forms quiz for
3.3-3.5. This keeps them online, chunks the tasks well, and I've made it multiple
choice. We also feel that this eliminates the visual/spacial issues encountered with
the paper quiz.

ACTION: Kim to administer this version of the quiz to those with math goals
(not everyone on an IEP has a math goal), and report back to the group. If it goes
well, then Kim will create a Google Forms test for chapter 3. Again - this is
scaffolding.

FOR NEXT TIME: Works/Quirks/Changes for chapter 3.

STILL AHEAD: Discussion of student performance on Course Benchmark
Test 1.
